

SOURCING / PRODUCTION / CONSULTING

CRAFTED IN FOSHAN.
WORN WORLDWIDE.

Founded in 2005 and headquartered in Foshan — one of China's core apparel production clusters — we operate as an integrated OEM/ODM enterprise covering design support, sampling, bulk production, quality control, and export logistics.

EVERYTHING YOUR PRODUCT NEEDS, END TO END.

From small custom runs to large bulk orders — one connected partner, with the in-house team and equipment to take a product from first idea to finished, shipped goods.

01 - SOURCING

FABRIC & MATERIALS

A broad fabric network across Guangzhou Zhongda, Hangzhou, and Guangxi — matched to your price and quality target.

- Flexible capacity, small to bulk
- Fast sample turnaround
- Door-to-door shipping

02 - PRODUCTION

CUT, SEW & FINISH

Quality manufacturing, on time, every time — at scale.

- Optimized cutting
- Computer sewing machines
- Hanging systems, pressing & steaming

03 - DESIGN

DESIGN & SAMPLING

From concept to a sample you can hold — in-house, not handed off.

- Sample room: pattern makers & technicians
- CAD/ET digital grading & marker-making
- Sample sewers on-site

04 - QUALITY

CHECKED, THEN SHIPPED

Quality control at every stage, plus end-to-end export logistics.

- Incoming material inspection
- In-line QC & final inspection
- Hassle-free door-to-door delivery

ONE PARTNER. EVERY STAGE.

Four steps, one point of contact — design, production, quality, and delivery kept in step.

01	**DESIGN & SAMPLE**	Design support, pattern-making, and fast samples from the in-house sample room — before you commit to bulk.
02	**SOURCE & MAKE**	Fabric from Guangzhou Zhongda, Hangzhou, and Guangxi; cutting, computer sewing, and finishing at scale.
03	**CHECK AT EVERY STAGE**	Incoming material inspection, in-line QC, and a final inspection — quality checked as the work moves, not just at the end.
04	**SHIP WORLDWIDE**	End-to-end export logistics, door-to-door — to North America, Europe, Australia, and the Middle East.

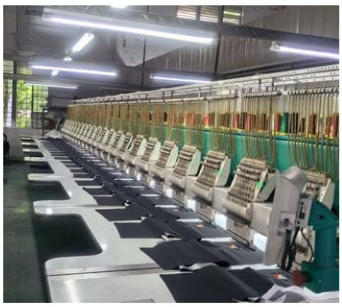

Production floor — quality and timing checked at every stage, not just at the end.

MAKE MORE POSSIBLE.

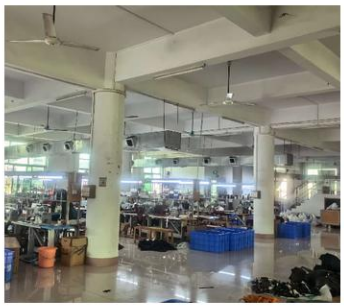

Production capabilities that flex around the product — if you can picture it, we can help you source it, make it, and ship it.
